Earlier model hoists had galvanized cables instead of stainless steel. Current model hoists use galvanized cables in the winch and the lift cable applications. The following chart shows the standard galvanized cable the hoist is shipped with and then the identical cable in stainless steel.

Model Hoist	Year	Galvanized Steel Cable (Standard)	Stainless steel Cable (Replacement)	Type Cable
SS26/36	Prior to 1994	3110038	3110029	Level
